1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1-10 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claims 1 and 2 recite no antecedent for the surface recited in the amendments thereto.

3. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

4. Claims 1-14 are rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Nilolaus or Butcher (5,107,871) alone, or in view of Whitaker et al., Barnett et al., or Muchin (cited herein). The base references may not show the barrier material as now added to independent claims 1 and 2. However, these materials are conventional, and the apparatus in each base reference is intended to hold material that has a fragrance. Accordingly, it would have been obvious to provide some surface of the panels with some coating to prevent unintended migration of odors. However, each of the secondary references is cited for emphasis to show the use of barrier materials coated unto a substrate to prevent the unintended migration of odors (“coated” as claimed is interpreted broadly to also include lamination of a barrier material unto

a substrate in view of the broad teaching in the specification pointed to by applicants in support of the amendment to claims 1 and 2). It would have been especially obvious in view of any of the secondary references to coat some surface of panels of the base references in order to prevent unintended migration of fragrances from the packaging.

5. Applicant's arguments with respect to claims 1-14 have been considered but are moot in view of the new ground(s) of rejection.

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however,

will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
